

## Big Year for KAHS "WE" Group

The 2019-20 "We Create Change" group at Kate Andrews High School enjoyed another very successful year of supporting local and global causes. Even with a shortened school year, due to the Coronavirus pandemic, the WCC group at Kate Andrews was able to raise over \$2,500, with some of this money going to support local organizations in need and some of the money going towards helping support the "WE Global Villages" program in the two areas of Education and Health Care.

Over the last 8 years at Kate Andrews, the "We Create Change" group has been extremely successful in helping local and global causes. Whether it was: bake sales, collecting bottles and cans, running a concession for tournaments, offering up "WE WEDS" hot lunches, or having very generous community members step up and donate, the group has been supported in so many ways.

Teachers Mike Gibson and Annalee Hamilton, "We Create Change" co-ordinators, say a huge thank you goes out to all students, staff and community members who help every day to "Be the change they wish to see in the world."

KAHS's "We Create Change" group outside Rogers Place in Edmonton, as they attended "WE DAY" Alberta in October early this year.

Teachers, Mike Gibson and Annalee Hamilton, "We Create Change" Coordinators with their groups cheque for 'WE Villages' in the amount of \$2,000. (Due to COVID-19, no students were able to be pictured with the two teachers)
